

The background of the slide is a dark, grayscale photograph of industrial machinery. It features various mechanical components, including what appears to be a large cylindrical filter or part of a pump assembly with a chain attached, and other structural elements of a machine. The lighting is dramatic, with some parts highlighted and others in deep shadow.

HYDAC

"... Only a sustainable and proactive system or process optimization creates lasting added values for the customer ..."

Introduction Letter

Welcome to the introduction of the Business Innovation Group

Casper Ladeby, Product Development Engineer, Innovation Manager

Responsibilities:

- Building new Business Models and Services enabled by Industry 4.0
- Founder of HYDAC Business Innovation Group (BIG)

*Inspired and motivated by United Nations
Goals for Sustainable Development*

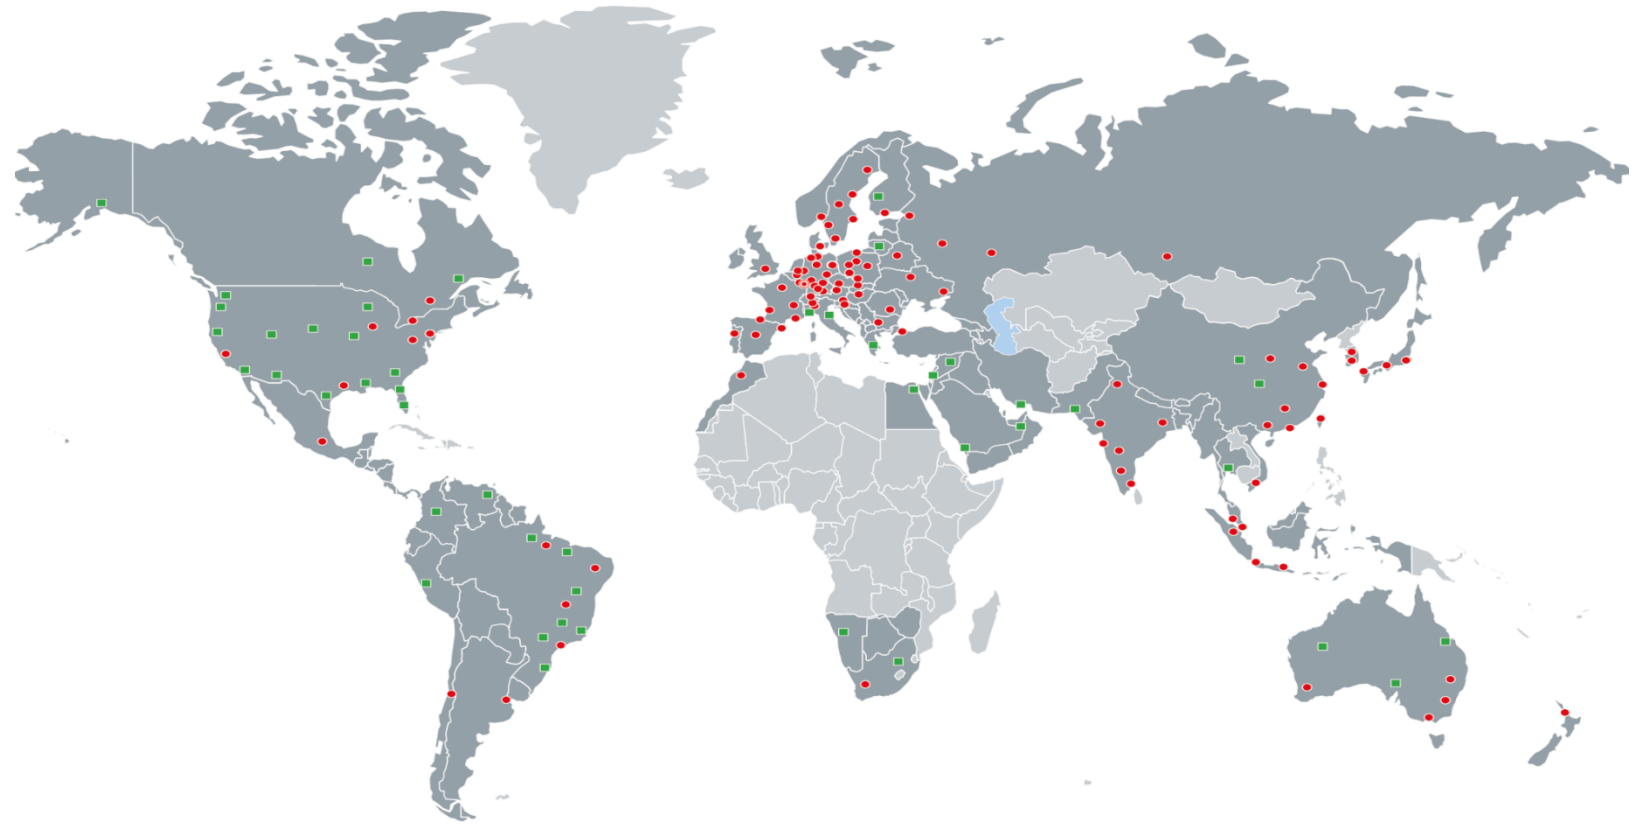

Worldwide Presence

Technology, Sales and Service Worldwide

HYDAC and Hydraulics – inseparable for 57 years

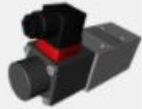

HYDAC was founded in 1963 as a company for hydraulic accessories and is today an internationally active company group with over 9000 employees, 50 branch offices and 500 trade and service partners worldwide.

HYDAC stands for hydraulics, systems and fluid engineering.

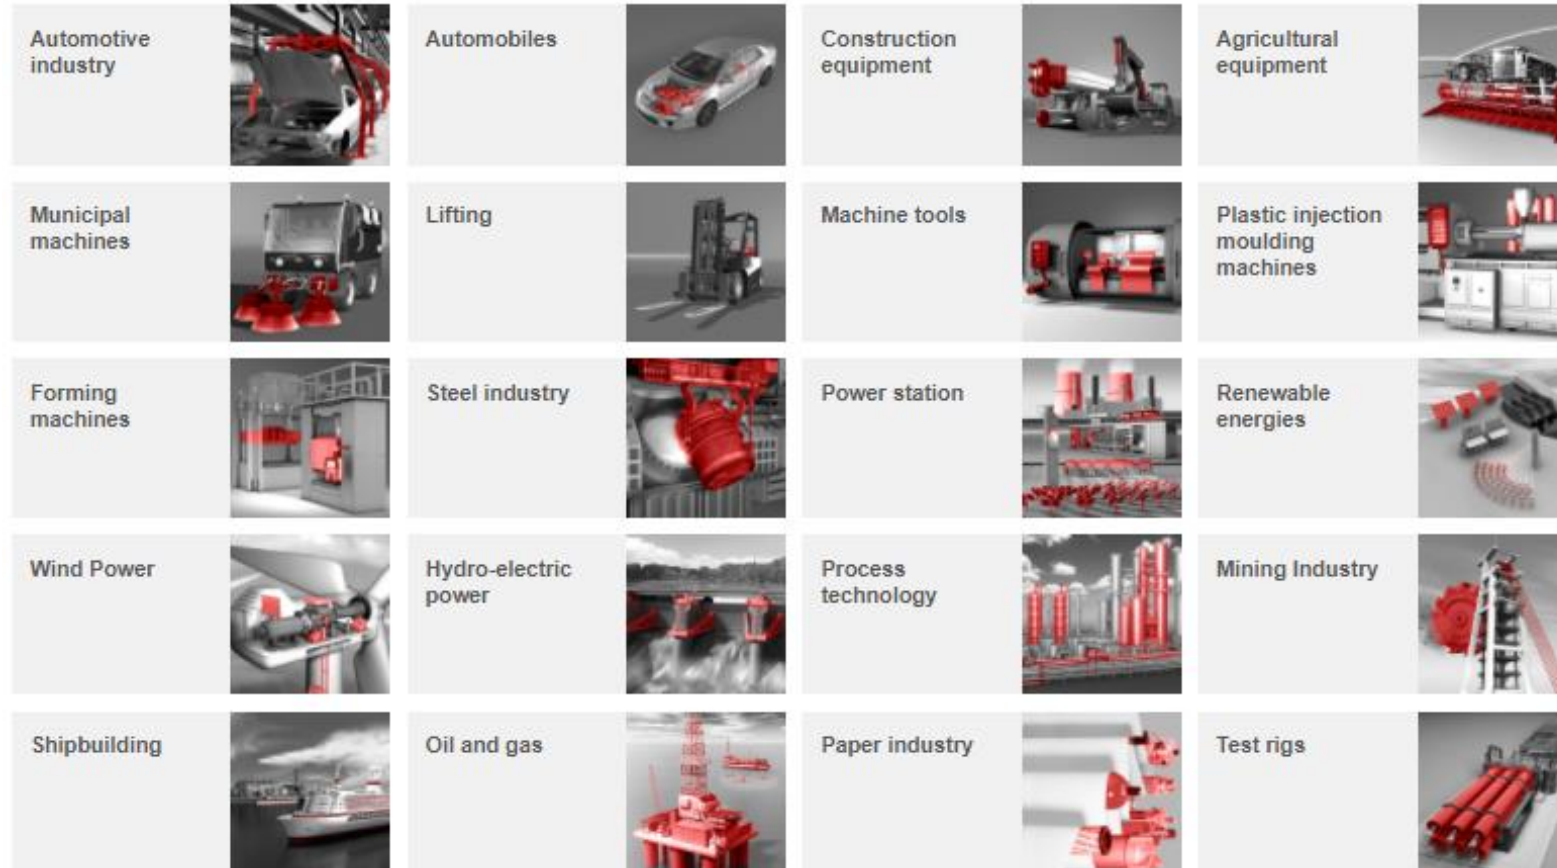

- HYDAC Headquarters
- HYDAC Companies
- HYDAC Subsidiaries

Our products

Filtration and fluid conditioning		Hydraulic accumulators		Valves		Manifolds, housings	
Heat exchangers / coolers		Cooling systems		Pumps		Bell housings and accessories	
Sensors		Measurement, display and analysis tools		Control technology, connectivity		Solenoid technique	
Fittings / ball valves		Mounting technology		Pipe connections		Couplings for fluids	
Power units		Motion control systems		High pressure hydraulics		Mobile Hydraulics	
Mobile Valves		Cylinders		Services		Software Suite	

Our industries

In short: Hydraulics is behind most things you consume

A couple of our customers

EDF Energy – Reduce waste oil and increase asset reliability.

subsea 7

Subsea 7 – Reduce waste oil and increase asset reliability.

Tata Steel – Increase Sustainability on steel production

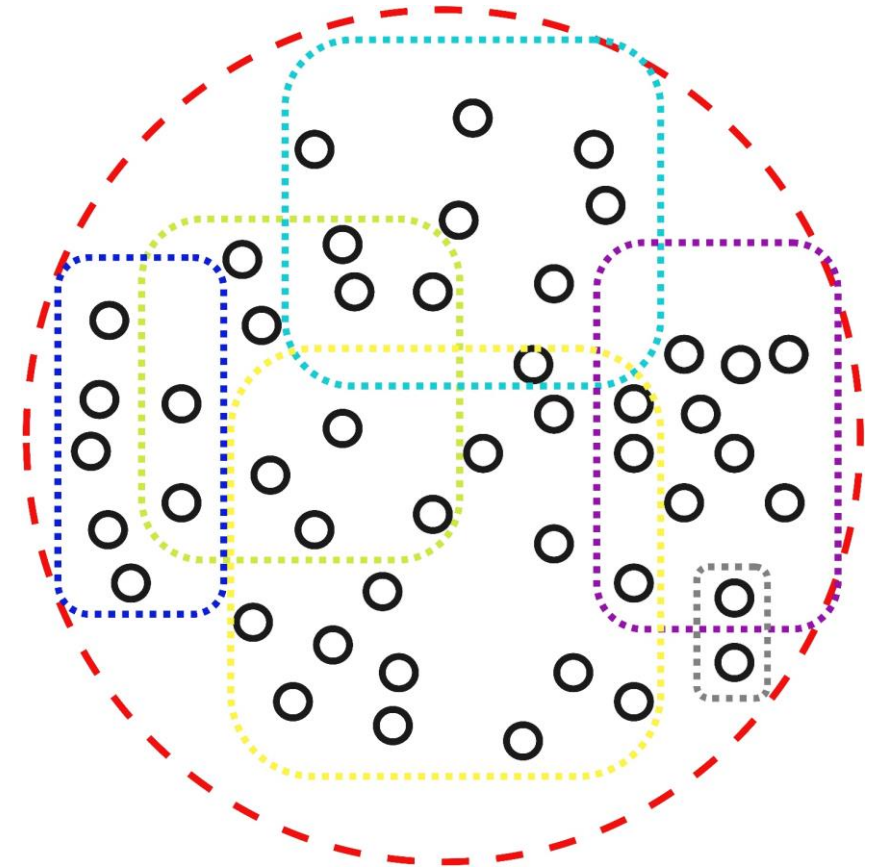

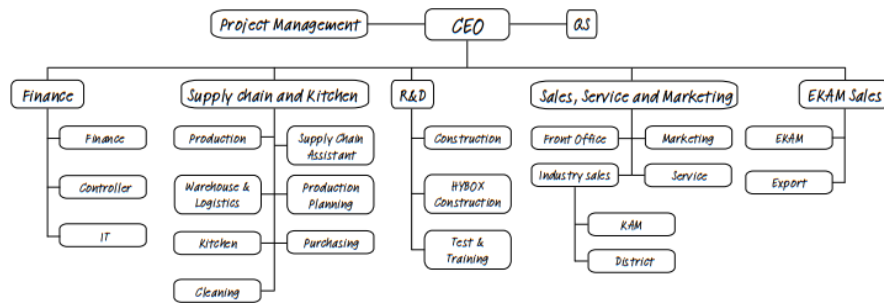

CROWN
Brand-Building Packaging™

Crown Beverage – Increase sustainability and decrease failure rate in production

Why are we special in Denmark then?

Our organisation has changed to distributed management

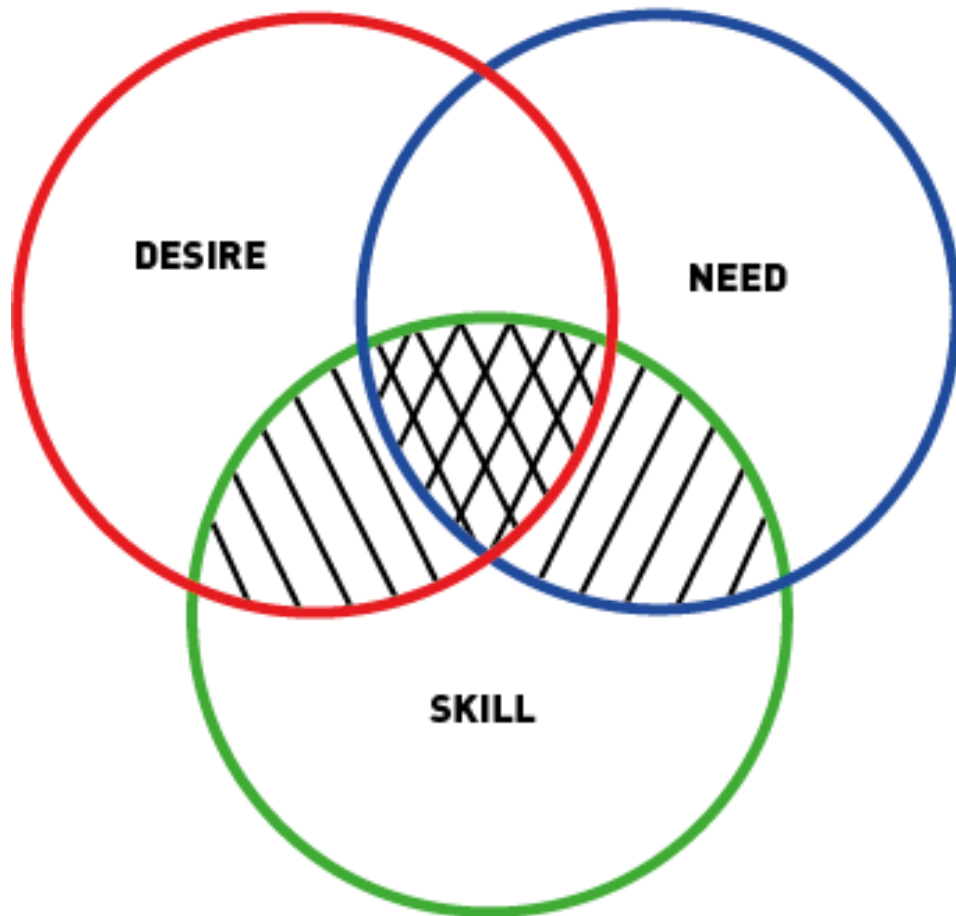

WHAT DID HE SAY?!

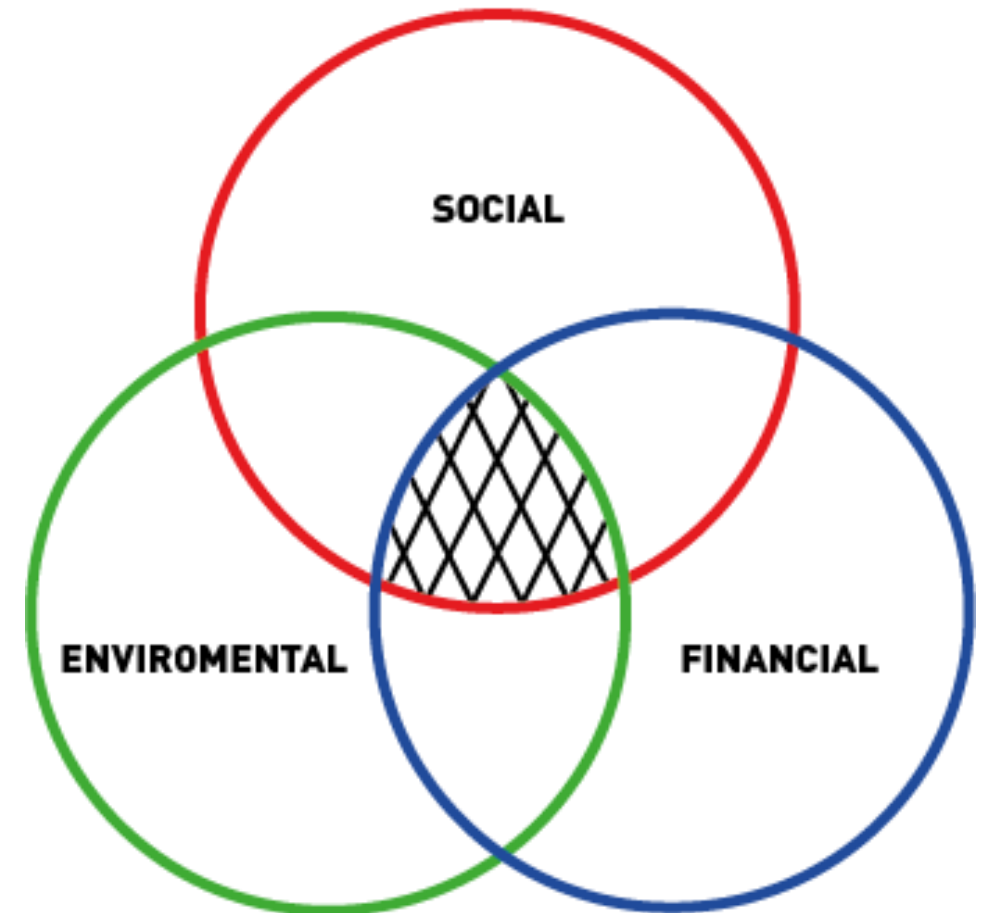

I'm free to do whatever I want

MOTIVATION

SUSTAINABLE

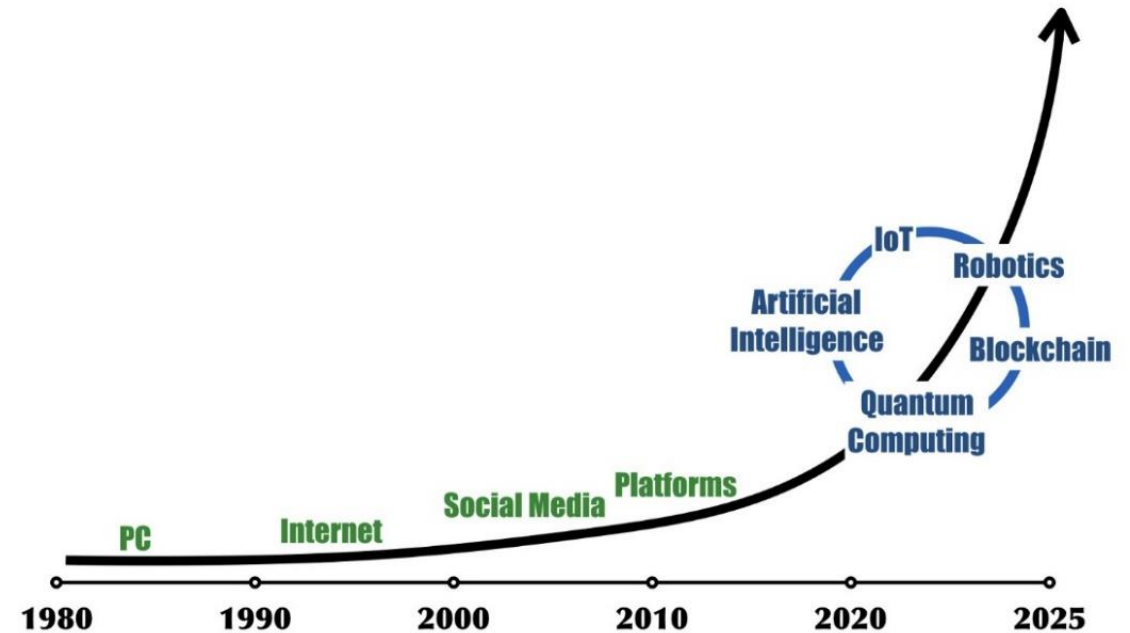

*Let us facilitate the place where people
meet, get inspired, think big...*

Jens Haugaard

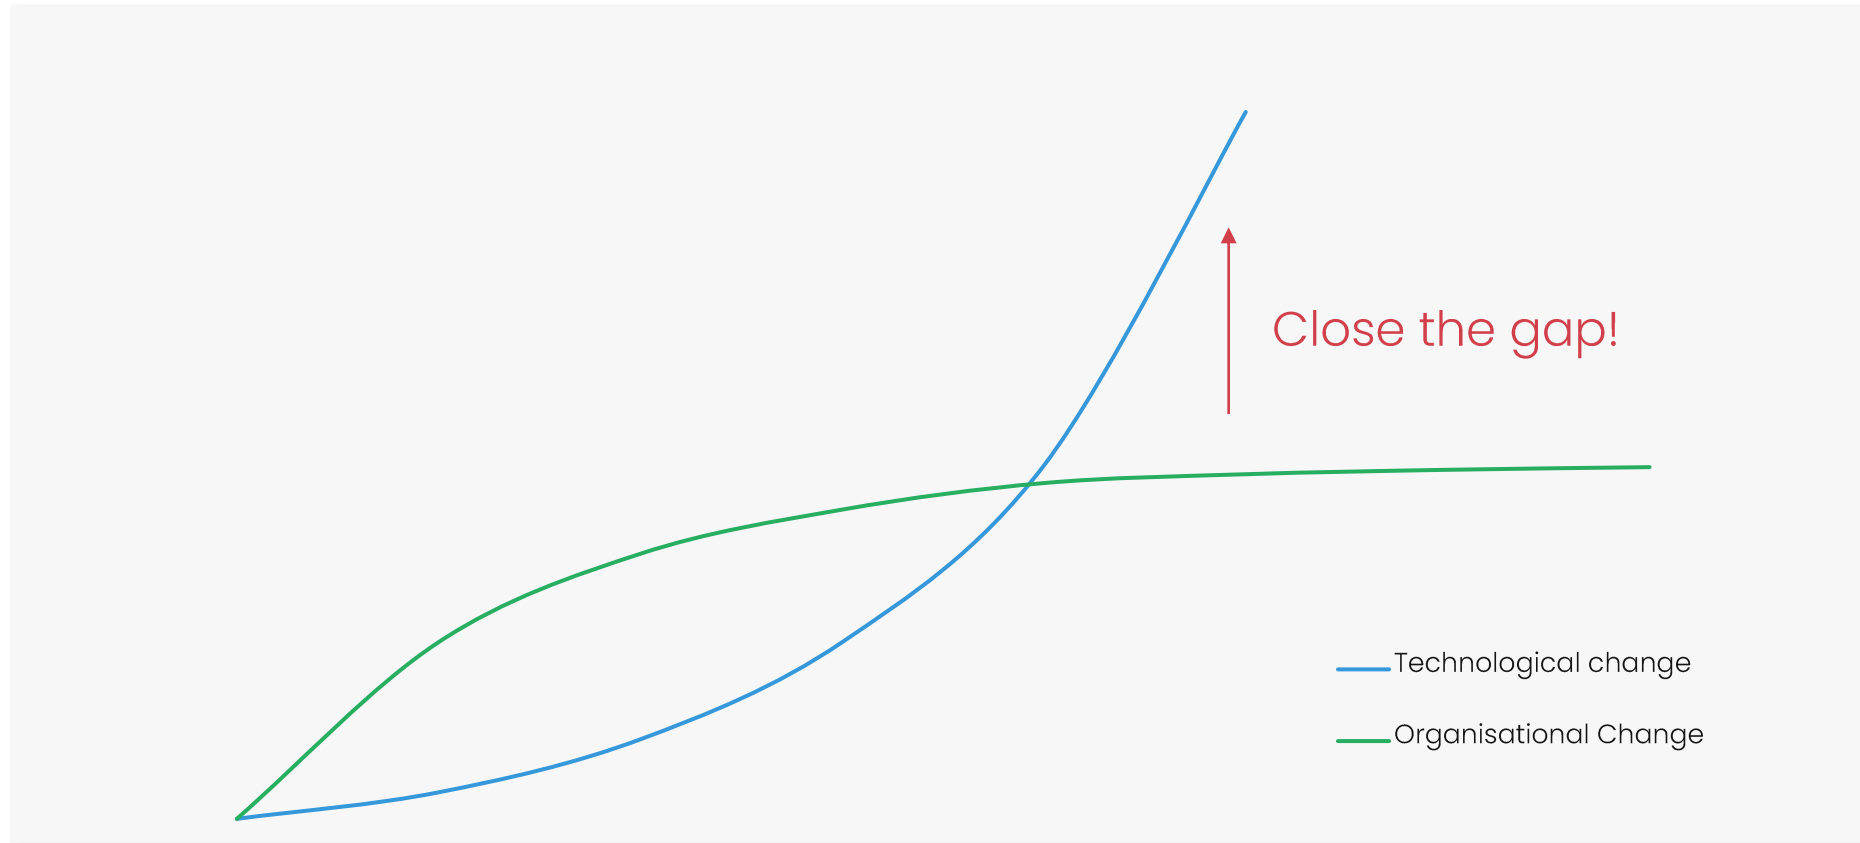

My task and today's challenges

Martec's Law

Technological change happens exponentially – Organisational change.... Not so much

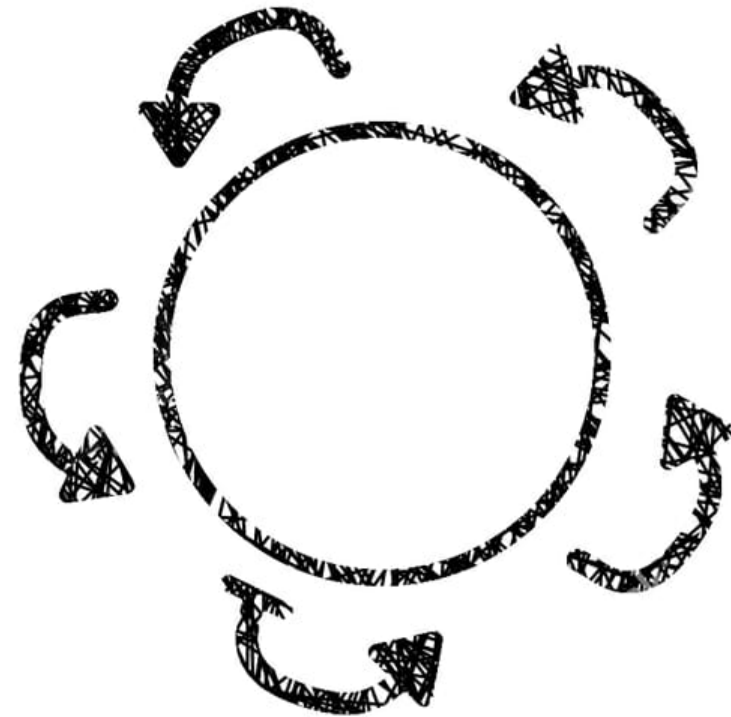

**“I can
never
achieve
that alone”**

I founded BIG and set our own goals

Through distributed management, we had the possibility to set our own goals and desires.

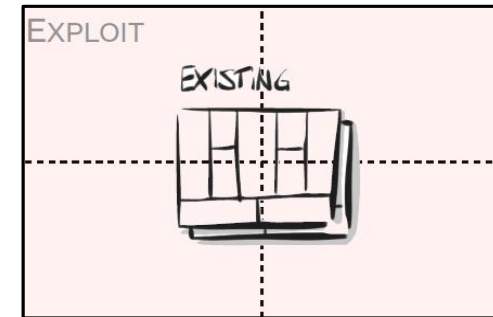

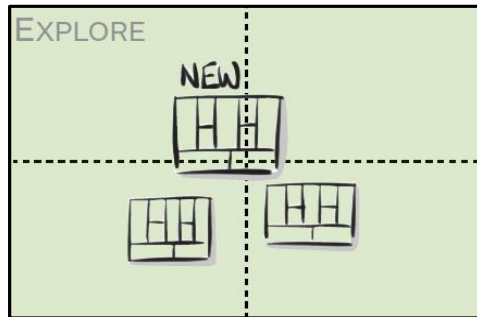

The aim is:

- To be purpose driving and have a deeper meaning than just profit
- To work towards our own dreams and ambitions
- To accelerate the adoption of emerging technologies without being dependent of existing rules.
- To enhance our creativity and expand our capabilities.

EXPLORE

EXPLOIT

Growth

FOCUS

Cost cutting & efficiency

Iterative search experimentation,
failure, insights

CULTURE & PROCESSES

Linear execution, failure is not an
option

Exploration, pattern recognition,
big picture

PEOPLE & SKILLS

Process & detail oriented, rigor

Introducing HYDAC BIG

SUSTAINABILITY IS OUR VISION

Making our industry sustainable by reducing waste, optimising consumption to reduce our footprint.

COLLABORATION IS OUR METHOD

Developing Co-Creation partnerships with likeminded companies to put user needs at core.

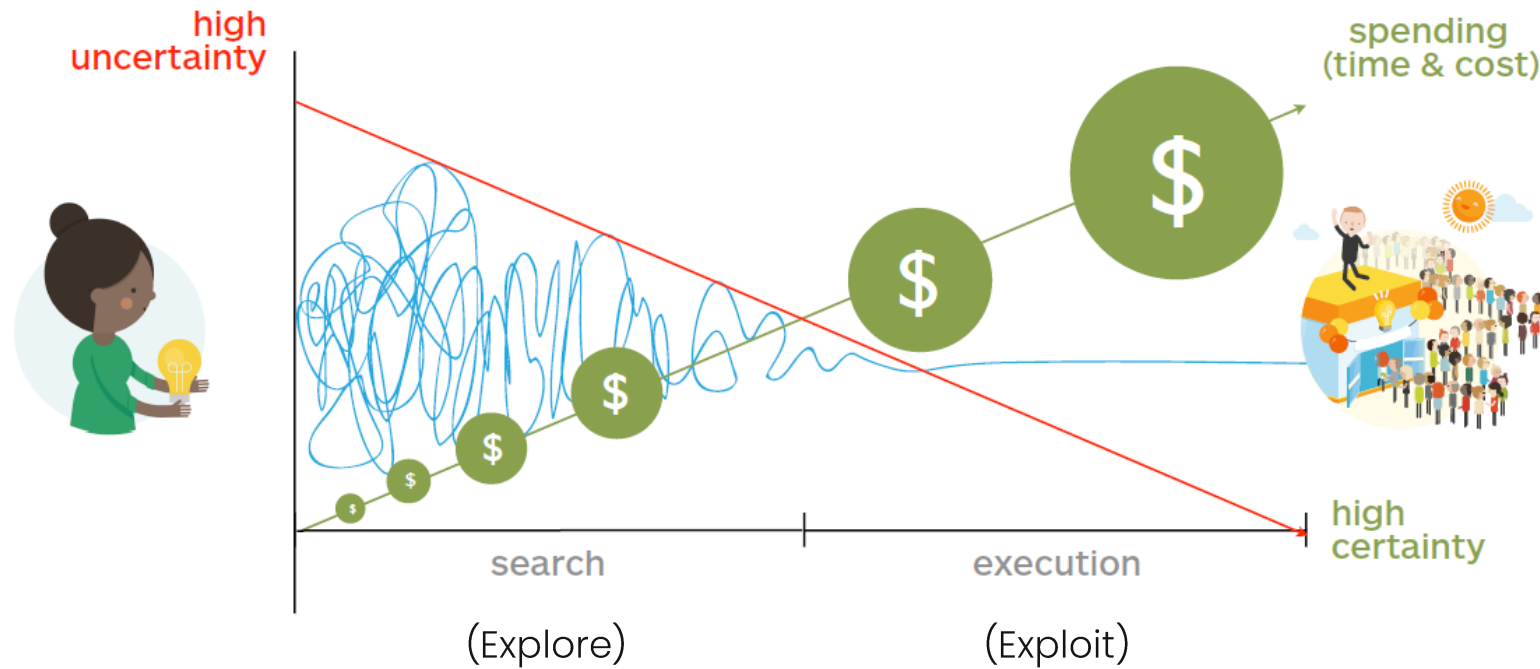

INNOVATION IS OUR BACKBONE

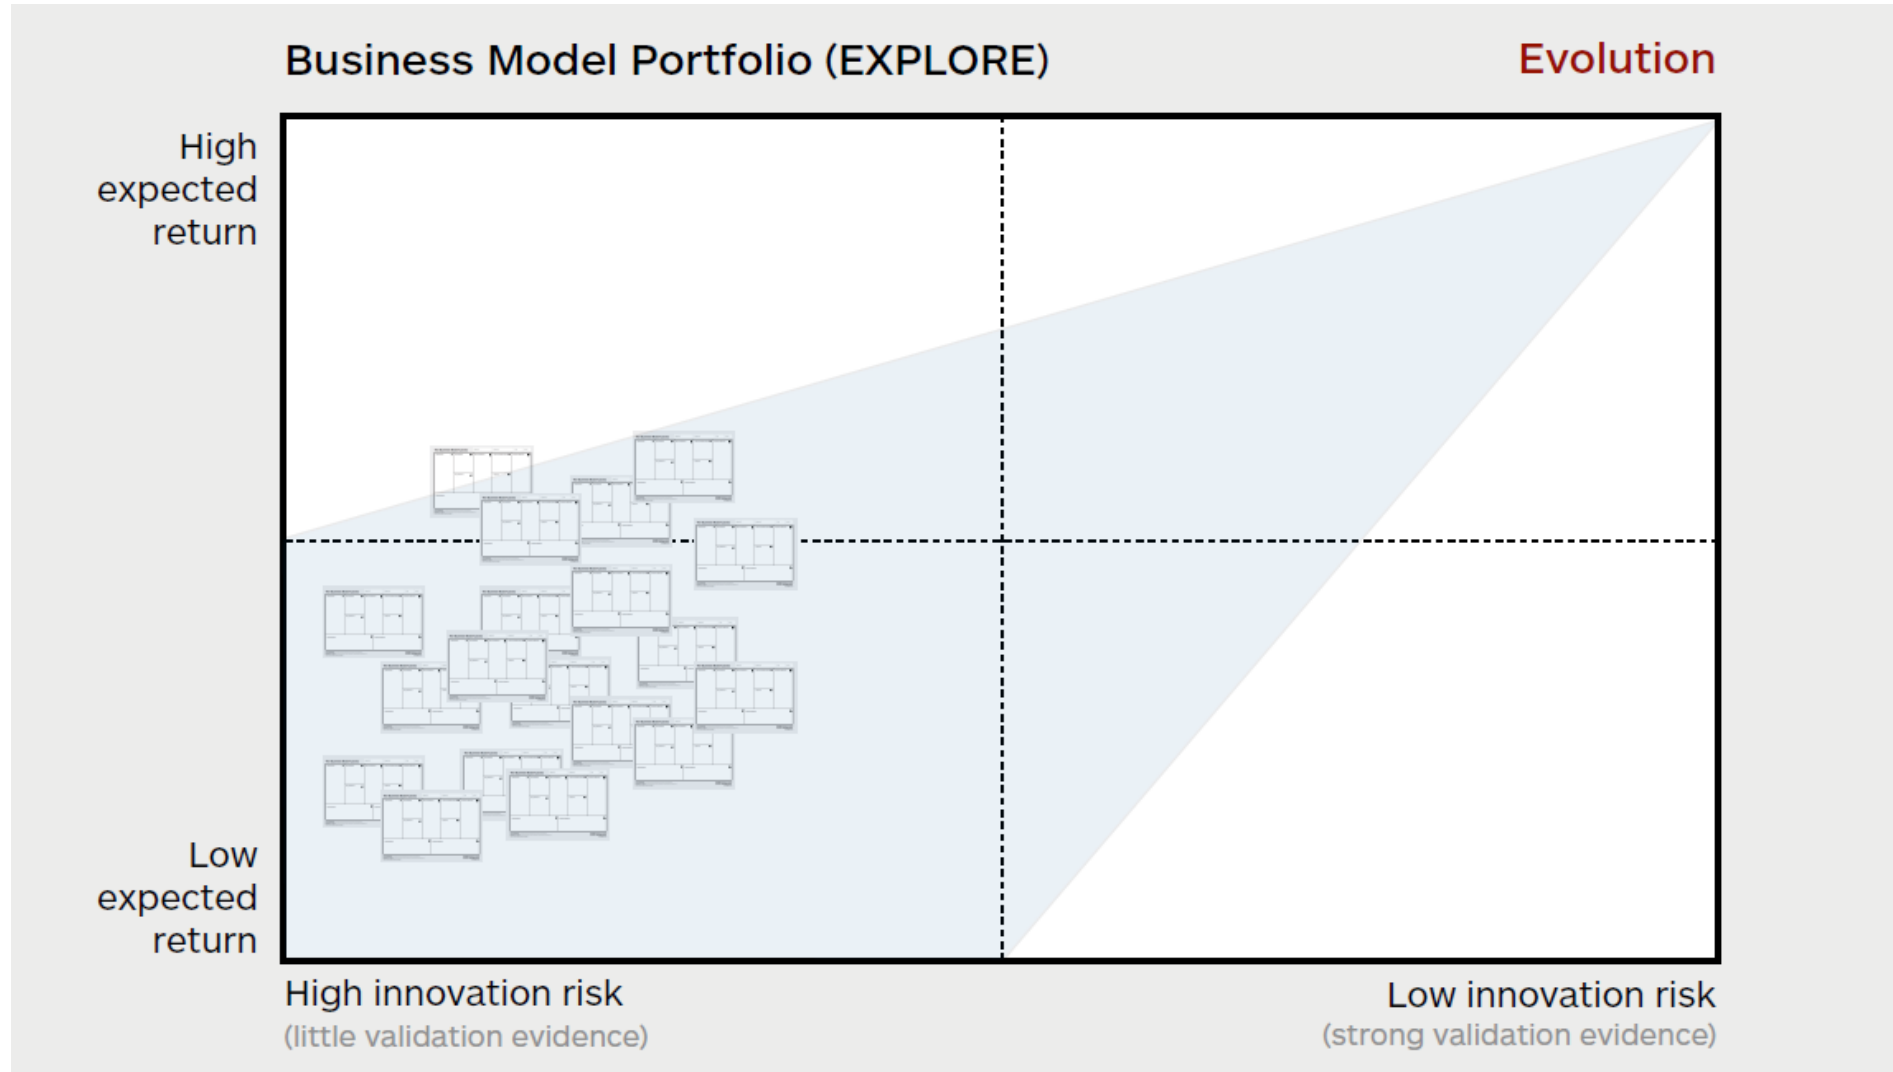

Through design thinking and agile ideation, we accelerate the pace of innovation to meet our goals.

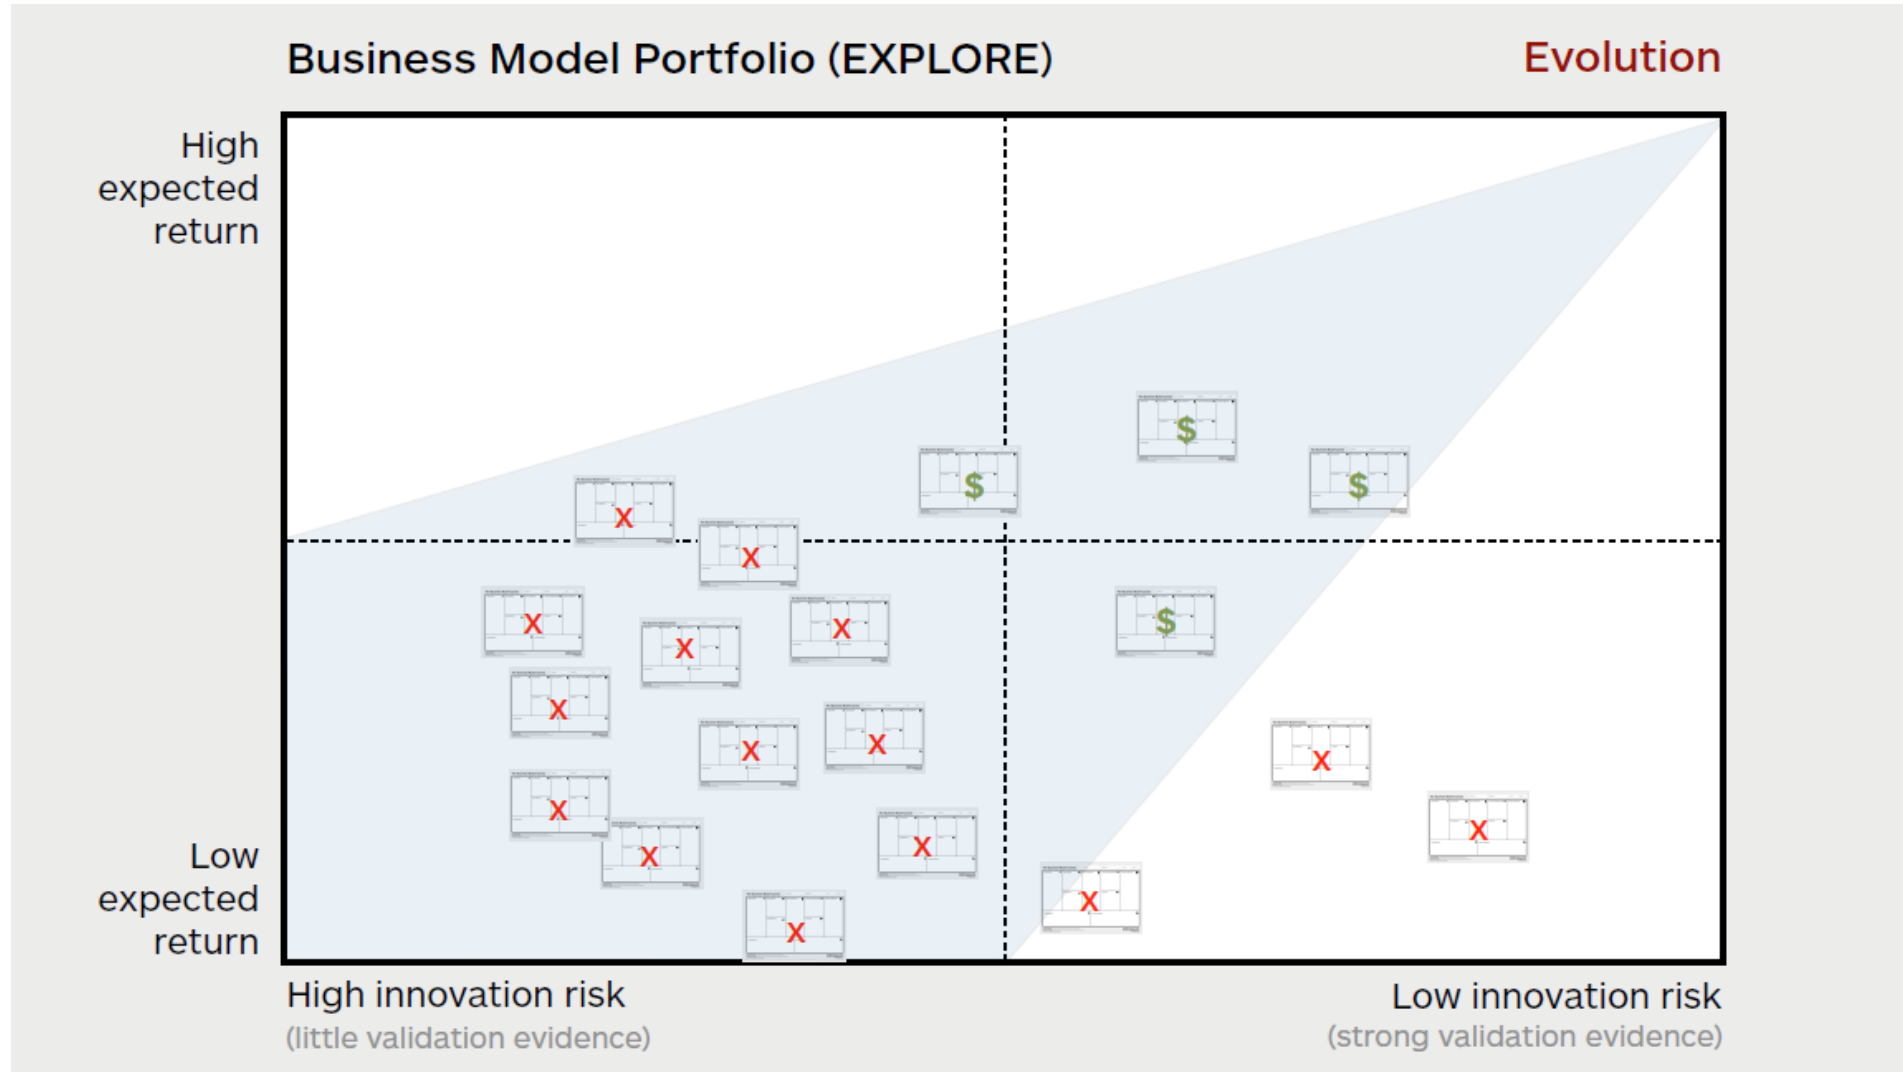

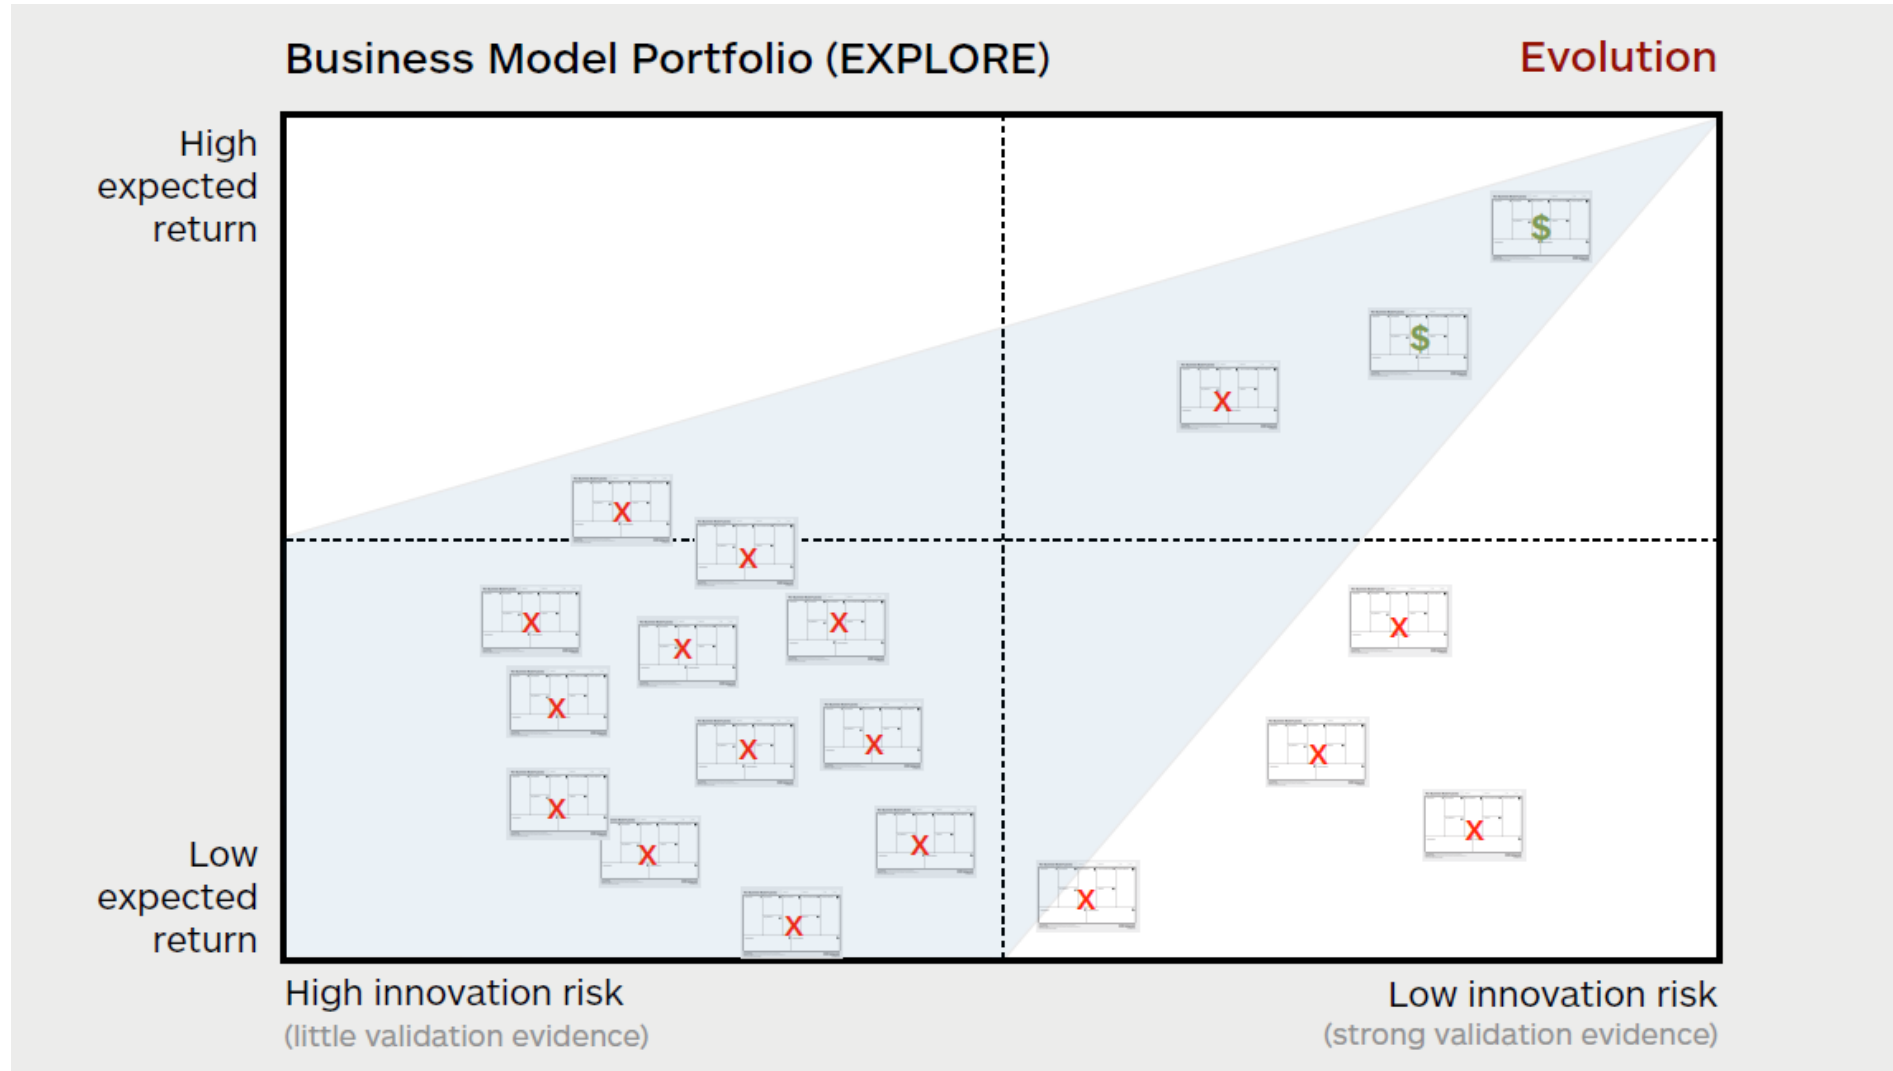

The agile mindset

Starts with proof of concept before risking large investments

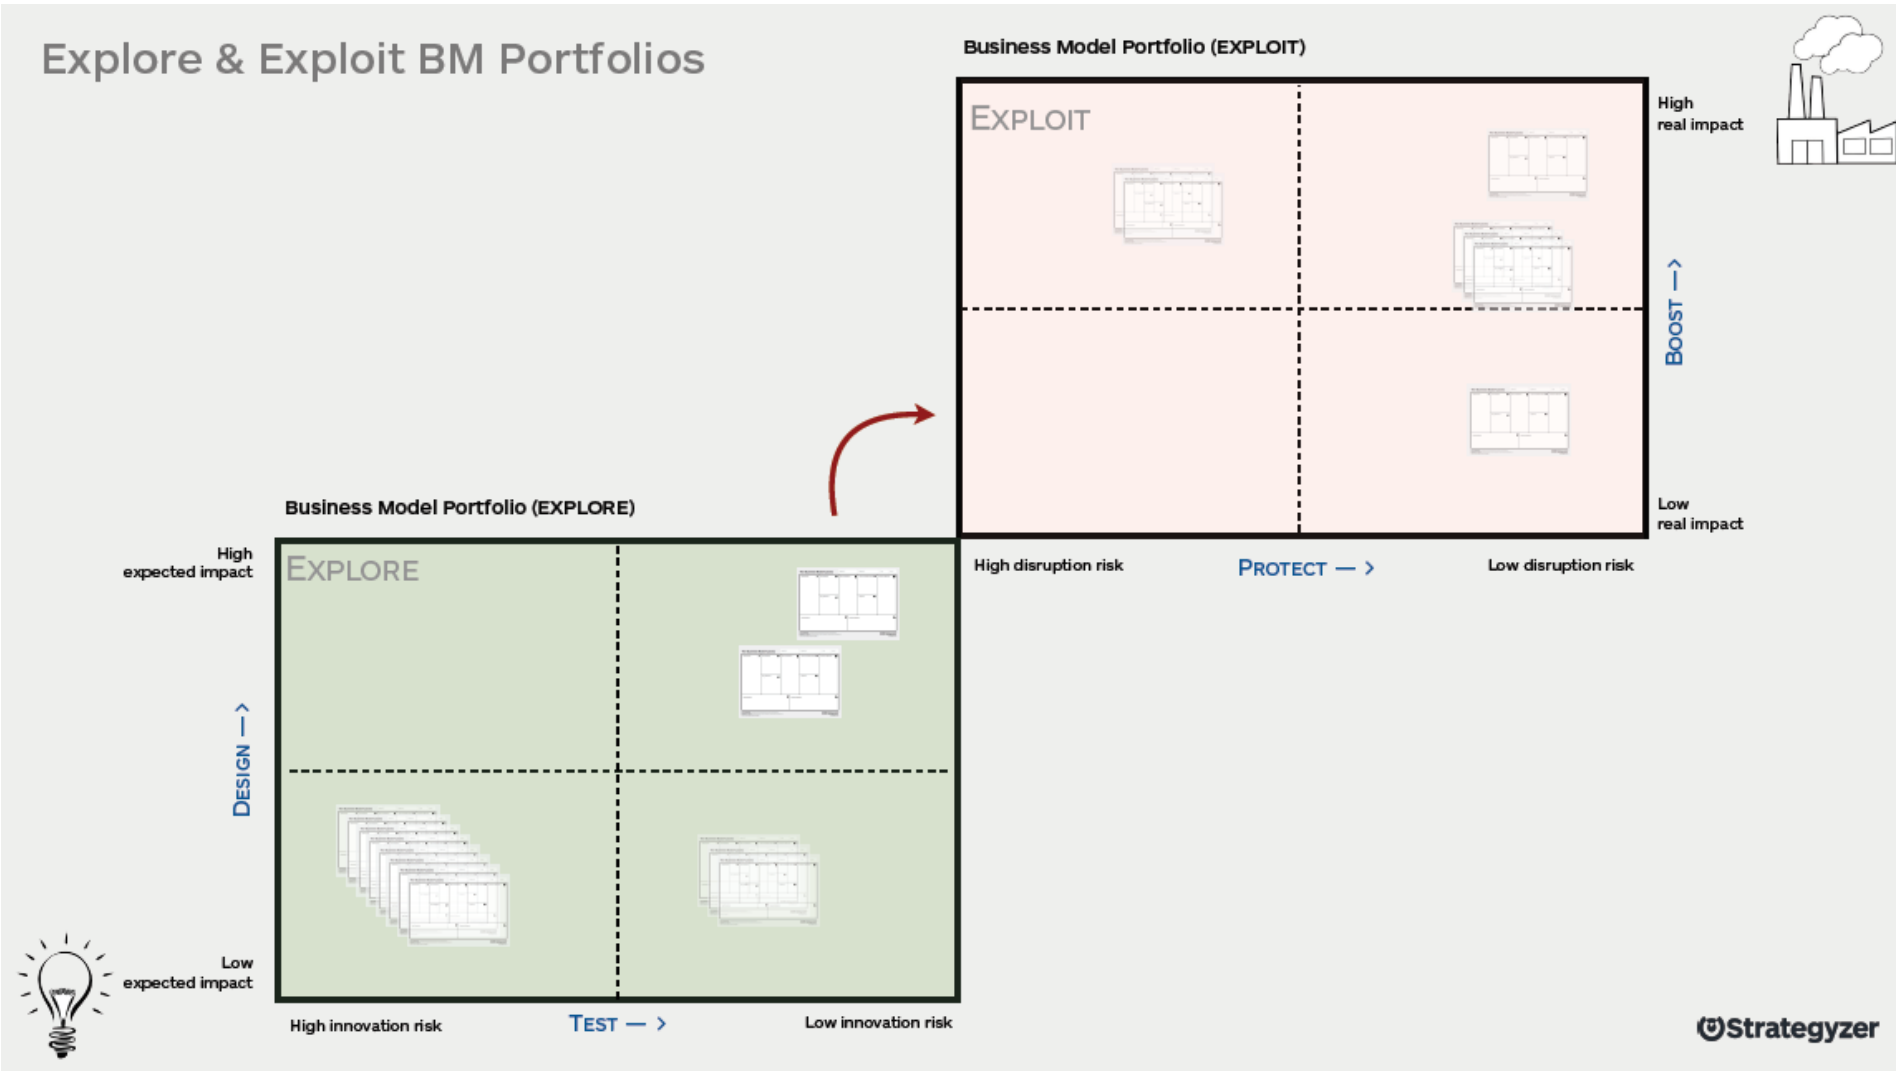

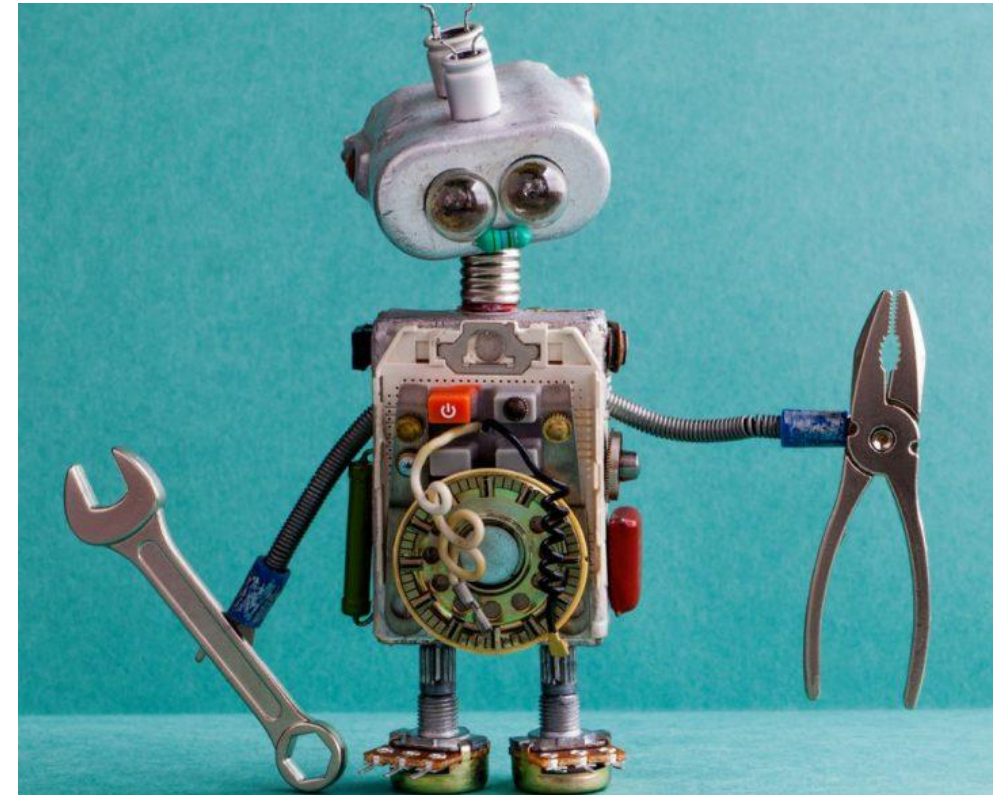

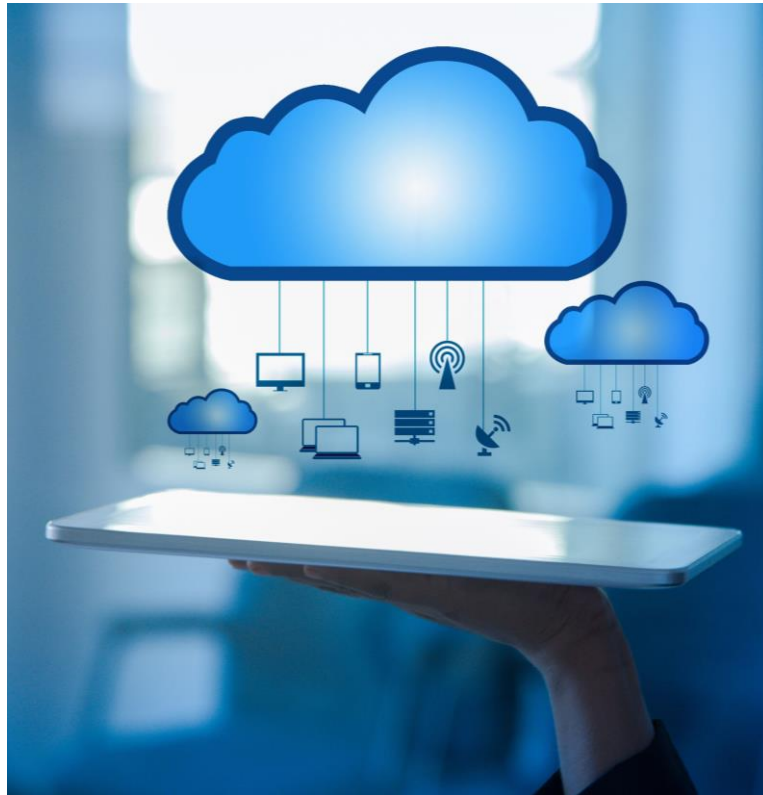

Explore & Exploit BM Portfolios

Technologies I am working with

THE BUSINESS INNOVATION GROUP

Thank you!
